	Index	11

Automatically version jupyter notebooks in JupyterLab

[Build Status](#) [Coverage](#) [GitHub issues](#) [PyPI](#) [PyPI](#) [npm](#)

CHAPTER 1

Save every notebook revision

Enhanced checkpoints, versioned and persistent between restarts on every save

CHAPTER 2

Install

```
pip install jupyterlab_autoversion
jupyter labextension install jupyterlab_autoversion
jupyter serverextension enable --py jupyterlab_autoversion
```

`jupyterlab_autoversion.extension.load_jupyter_server_extension` (*nb_server_app*)

Called when the extension is loaded.

Parameters `nb_server_app` (*NotebookWebApplication*) – handle to the Notebook web-server instance.

j

`jupyterlab_autoversion`, 7

`jupyterlab_autoversion.extension`, 7

J

jupyterlab_autoversion (*module*), 7
jupyterlab_autoversion.extension (*module*), 7

L

load_jupyter_server_extension() (*in module jupyterlab_autoversion.extension*), 7
